ABOUT ME

Web Developer with 2 years of experience in designing, developing, and maintaining web applications. Proficient in front-end and back-end technologies, with a strong focus on performance, scalability, and user experience. Passionate about writing clean, efficient code and solving complex technical challenges.

EXPERIENCE

Yorkmars (Cambodia) Garment MFG Co., LTD | June 2023 – Present

Full Stack Web Developer

- Developed and maintained web applications using Laravel, Livewire, and React, optimizing performance and user experience.
- Designed and managed databases in SQL Server, implementing efficient queries.
- Worked on stock management systems, tracking inventory, pricing, and profit calculations.
- Created a Telegram bot for automated notifications and data management, integrating it with business processes.

BMSC Cambodia | 2022–2023

Marketing Support

- Designed promotional posters for marketing campaigns and product promotions.
 - Managed customer interactions by responding to inquiries on the Facebook page, ensuring prompt engagement.
-

PROJECTS

Mechanic and Asset Management System

- Developed a system to manage assets, track their locations, stock, and monitor machine maintenance and breakdowns in a production environment.
- Integrated real-time repair tracking, maintenance scheduling, and mechanic notifications for improved operational efficiency.
- Automated notifications by sending messages to a Telegram group for instant updates on maintenance and breakdowns.

Restaurant Management System

- Developed a system to manage menu items, stock, and invoice generation for restaurant operations.
 - Integrated KHQR payment option, allowing seamless digital transactions.
-
